CENSURING SECRETARY LONG

For Saying Spain Cannot be Held Responsible.

THE COURT'S GUARDED MANNER

Hurry Order for Projectiles to Key West—All Quiet at Havana—Proctor at Matanzas.

By Wire to THE TELEGRAM.

Washington, March 2.—Secretary Sherman and Gage had a long conference with the President today. Secretary Long is severely censured for expressing the opinion that Spain could not be held responsible for the Maine disaster. In this connection it is notable that the secretary has not supported his opinion by any experts or high officials in the department. Congress is inclined to censure the secretary of the navy and a resolution to that effect is expected to be introduced today.

HAVANA IS QUIET.

By Cable to THE TELEGRAM.

Havana, Mar. 1.—The city is quiet today though the public and private greetings of the Vizcaya have not lessened their fervor. Divers are working hard upon the wreck and it is feared that many of the dead have been blown to pieces which accounts for the failure to find them. Senator Proctor has gone to Matanzas where he will spend the day accompanied by Clara Barton and Mrs. Ward. The trip can easily be made in one day, spending eight hours in Matanzas.

HURRYING PROJECTILES.

By Wire to THE TELEGRAM.

Brooklyn, Mar. 2.—A rush order has been received at the navy yard here for powder and projectiles of the Key West fleet. The order includes projectiles for the heavy guns of the battleships. Part of the ammunition will be shipped today and the remainder as soon as possible.

SUPPRESSING INFORMATION.

Key West, March 2.—The fact is becoming evident as the days pass that information direct from members of the United States court of inquiry into the loss of the Maine from those appearing before it is guarded with unusual closeness. Practically no information presented to the court has been disclosed. The restrictions are so severe that communications between naval men who have been before the court are also most guarded. Naval officers not connected with the court express the view the very little testimony has been heard tending to show that the explosion was the result of a conspiracy or even to indicate the exact cause of the disaster.

A STATEMENT IN COURT.

Judge Robinson Explains a Misunderstanding of Yesterday.

When court opened this morning Judge Robinson said he wished to make a statement in reference to the misunderstanding on yesterday between Maj. Stedman and himself; that he could not and would not allow any misunderstanding between Maj. Stedman and himself; that he never intended to be discourteous to any member of the bar and certainly he would not be to Maj. Stedman, who has been a friend to him from his boyhood; that his view of the matter was that after he had made a ruling it was the province of the other side to except and decide the matter in the supreme court, but that no misunderstanding could or should exist between Maj. Stedman and himself.

Maj. Stedman said he had always endeavored to uphold Judge Robinson, as he would learn from those with whom he associated intimately—Mr. King, Mr. Scott, Judge Schenck, Mr. Barringer and others—that he considered that the attorneys of the Southern railway company had made an unjust and unfair attack upon his client and that he had a legal right in reply to criticize the methods of that company; that he considered the manner and words of his Honor discourteous at the time to him personally, and that he could not quietly acquiesce in it, and that besides, he thought it had a tendency to injure his client; that he accepted the statement of the court in the spirit in which it was rendered.

This was offered in reference to an incident yesterday when the judge presiding brusquely ordered Maj. Stedman to desist from arguing a point pertinent to the trial in progress. Maj. Stedman thereupon took his seat and declined to continue the argument.

JOHN H. FERREE DEAD.

He Was One of Randolph County's Leading Citizens.

One of the most prominent and public spirited citizens of this section of North Carolina, John H. Ferree, died at his home in Randleman, yesterday afternoon at four o'clock. The funeral services will be conducted to-morrow morning at 11 o'clock from the Randleman Methodist Church, of which he was the leading member. From the News and Observer's special in regard to the death of Mr. Ferree we clip the following:

Mr. Ferree was a native of Morgan County, Burke county, and moved to Randleman in 1872. He formed a partnership with the late John H. Randleman. Their combined capital at that time did not exceed \$10,000. They bought the old Union Mills, organized the Randleman Manufacturing Company, and it is said that this ten thousand dollars is the only original money invested in Randleman cotton factories. The five cotton mills now running there, with a combined capitalization of \$400,000 are the result of this original investment.

Mr. Ferree continued to be secretary and treasurer of the Randleman Manufacturing Company up to the time of his death. But it was only one of five factories with which he was connected. He was president and a leading stockholder of the Naomi Mills, Plaidville Mills, Powhatan and Mary Antioch Mills. He was a careful and industrious business man and a success in all his business ventures.

Mr. Ferree was an active member of the Methodist Church. He was the chief contributor to the building of the handsome brick Methodist Church at this place, one of the half dozen rich Methodists who purchased Greensboro Female College some years ago, and a trustee of Trinity College.

Randleman is in mourning for the loss of its leading citizen.

PENITENTIARY FLOUR MILL.

Prisoners Will Grind Their Own Bread-stuffs.

By Wire to THE TELEGRAM.

Albany, March 2.—The establishment of a flour mill in Auburn penitentiary wherein can be made the hundred thousand barrels of flour consumed annually by the state institutions, is recommended in the report today submitted by the senate committee on penal institutions.

This committee was authorized by the last senate to investigate the operation of the new prison labor system whereby articles needed by the state departments and institutions and by the civil divisions of the state are now manufactured by penal institutions.

Butler Files His Charges.

Washington, Mar. 1.—Senator Butler, of North Carolina, today filed the charges formulated by him against H. G. Ewart, who has been nominated by the President for the office of district judge of the western North Carolina district. It is understood that Mr. Butler charges that Mr. Ewart is unfit for a judicial office, because of a lack of legal attainments, and is of wrong temperament. The committee on the judiciary will make a thorough investigation, and to this end will probably summon several witnesses from North Carolina.

Long on the Situation.

After the cabinet meeting yesterday Secretary Long said unofficially to the representatives of the press:

"The main things we talked about in the cabinet were the outrages on the postmasters, one white man in Georgia and one a colored man in South Carolina.

In regard to the Cuban question, we think things are growing quieter every day and as far as my judgment went I was inclined to think that any official participation on the part of the Spanish government in the disaster was now practically eliminated."

Expedition Abandoned.

Washington, March 1.—The war department has decided to abandon its expedition for the relief of the miners in the Klondike country; because the conclusion has been reached that no necessity exists for it.

Secretary Alger has written a letter to Senator Hawley, chairman of the senate committee on military affairs, explaining the department's position and as to the position of the supplies purchased, including the reindeer which have just arrived from Norway, and to abandon the project entirely.

BURYING DEAD OF THE MAINE

Only the Stars and Stripes Will Be Carried.

CEREMONY WILL BE ELABORATE

Miantonomah and Katahdin Go Into Commission—Former Will Defend New York.

By Wire to THE TELEGRAM.

Key West, Mar. 2.—Preparations are making today for the funeral tomorrow of the dead of the Maine. The victims have been brought from Havana. The ceremonies will be of the most elaborate character. The crew of every man of war in the harbor will march behind the remains. The procession will be a most imposing one. The band of the flagship New York will head the funeral procession and behind will come the survivors of the ill-fated battleship. Only the stars and stripes will be carried in the procession.

VESSELS GO INTO COMMISSION.

By Wire to THE TELEGRAM.

Philadelphia, Mar. 2.—The officers the Monitor Miantonomah and the ram Katahdin have been selected. Both vessels will go into commission on March 10th. The Monitor will be used to defend New York harbor and the Katahdin will join Sicard's fleet.

A STRANGE CRIME.

An Old Man and His Son Found Dead in a Cave.

A Morganton special to the Charlotte Observer says:

Considerable excitement was caused here today by a report that an old man and a boy were found hanged in a cave in the mountains near Table Rock, twelve miles west of here. About three weeks ago an old man and a small boy moved into the settlement near Table Rock, and occupied a small cabin at the foot of the mountain. On being questioned by some of the mountain people the old man said that he had married an Indian squaw in the western part of the State, and that the boy with him was the product of that union. He had some trouble with the Indians, and was driven out of the Indian nation, and bringing the boy with him, settled here in Burke. This is practically all that is known of them.

Yesterday morning a mountaineer named Branch found the bodies of the old man and the child in a cave near their cabin, dead, with ropes about their necks, evidently having died from the effects of strangulation. Whether it is murder or suicide, is not known.

James Is Satisfied.

The Gazette, Jim Young's paper, has passed in its checks and is now numbered among the dead in Raleigh's much-crowded newspaper cemetery.

The last issue of the Gazette, which appeared without interruption for five years under the management and editorship of Jim Young, made its farewell appearance last week.

Jim Young spoke freely as to the cause of the suspension of the paper to a Post reporter yesterday. He said: "I have sunk \$1,000 of my own money in the Gazette. I am never going to spend another dollar on it. If those gentlemen who have secured offices don't think they need the Gazette, why all right. I am satisfied if they are."—Raleigh Post.

Cape Lookout Sold for 93 1-2c.

Cape Lookout, the famous point that is recorded on all the maps of the world, was recently sold for 93 cents under a land grant by the state.

Eugene Yeomans was the purchaser of this famous projection. Mr. Yeomans was given a grant for 74 acres by the secretary of state and he paid therefor 74 cents per acre. The Cape is in Carteret county.

Another grant was issued at the same time by the secretary of state for 91 acres on Mount Mitchell, the highest mountain peak east of the Rockies. The grant was made to Wm. Stepp—Raleigh Post.

Dr. Evan's Hidden Gems.

Paris Feb. 28.—In an old safe concealed in a closet in the apartments of the late Dr. Evans, the American dentist who left a fortune to Philadelphia to establish a great dental institution, cleaners have found gems worth \$200,000 that the lawyers knew nothing about. These gems are diamonds, rubies, emeralds, pearls and topazes, gifts to Dr. Evans from royal personages of Europe.

WHEN A PARSON CALLS EARLY.

Finds Women Looking Stale Because They Had Played Cards.

New Brunswick, March 1.—The members of the Pitman Methodist Episcopal Church, which is one of the most active socially in town, are in a state of mind because their pastor, the Rev. George H. Neal, in a sermon last evening told his people that card playing is inconsistent with spiritual life and those who engage in it are not fit to be active church workers. Mr. Neal said: "I have called at houses in the morning where the women had an awfully stale look on their faces. When I inquired if they were ill, they replied that they had only been playing cards until 2 A. M. My experience in four churches has taught me that progressive euche is a dissipation. Cards have a past that is black with evil, and Christian people ought to wash their hands of things to be found in the low gambling dens, brothels, gilded saloons, and other places of vice.

"According to the statistics of Anthony Comstock, in the year 1890, 128 people had been shot or stabbed over the gambling table, six had attempted suicide, and 60 had been murdered as the result of the influence of cards. Cards had also caused the defalcation of \$2,900,372 during the same year."

Slain With a Hat Pin.

Chicago, March 1.—A woman's hat pin was the weapon with which Bartholomew Brant Brander, the Parisian drummer, who died at the Palmer House, was mysteriously murdered.

The autopsy shows not only concussion of the brain, but a small puncture which began near the corner of the left eye and extended far into the interior of the skull. It was not of greater diameter than the lead in a pencil.

In a rational interview shortly before he died Brander told the doctor that he had entered a saloon and had taken a drink and remembered nothing more.

The detectives are following several clues that may help solve the mystery.

Silver Purchases and Silver Coinage.

Washington, March 2.—In response to an inquiry of the Senate, Secretary Gage says that there were purchased under the act of 1890 168,664,682 ounces of silver at a cost of \$155,931,002. Until the repeal of the purchasing clause in 1893, 36,087,285 dollars were coined, the seigniorage amounting to \$6,877,162. Since 1893 37,735,572 dollars have been coined, the seigniorage aggregating \$11,812,655. On February 1 last there was yet remaining uncoined 111,513,746 ounces, costing \$100,835,363, on which the seigniorage, if converted into dollars, would be \$43,344,025.

"Peace Forever," Says Woodford.

London, March 1.—The Globe, of Madrid, dated February 23, just received here, discussing the political situation, says: "Nothing could be more promising than the present relations between the two nations. General Woodford's words, 'Peace forever,' are hailed with delight. Senor Sagasta, the cabinet ministers and General Woodford all make such explicitly peaceful statements that peace may be regarded as assured. This is all the more satisfactory, since the late events all pointed to a different issue."

A Mysterious Shooting.

Spartanburg, S. C., Mar. 1.—This afternoon T. J. Trimmer, a well known merchant and respected citizen was shot and killed by Dr. S. J. Bivings, a prominent dentist. Bivings entered the store of the deceased with a pistol in each hand and without warning shot Trimmer three times, one ball entering the heart and causing instant death. Trimmer's son also was injured in the left hand. The cause of the shooting is a mystery as the men had been close friends.

New Whiskey Trust.

Cincinnati, March 1.—A distiller in this city is the authority for the information that a deal is being worked for the consolidation of the spirits manufacturing plants, independent of the American Spirits Manufacturing company. The plan is to consolidate the new combination with American company, with J. B. Greenhut at the head.

One Million for Smokeless Powder.

Washington, Mar. 1.—The House committee on naval affairs this afternoon agreed on items of \$1,000,000 for the purchase of smokeless powder, and \$60,000 for arming and equipping the naval militia.

ACTING UNDER SIGSBEE'S ORDERS

Senator Quay Says That It Is Only a Question of Indemnity and Not of War at All.

By Cable to THE TELEGRAM.

Havana, Mar. 2.—The Merritt Company's divers began work outside of the Maine's hull for the first time today. The divers went down over new forty-foot ladders. Henceforth under Sigsbee's orders the divers will direct their efforts to both recovering of the bodies of the victims and making explorations of the hull with a view to finally raising the vessel.

QUAY'S VIEWS.

By wire to THE TELEGRAM.

Pittsburg, March 2.—Before leaving for Washington today Senator Quay said: "Even if the Maine was destroyed by an external agency I don't see any cause for war in that the matter could be settled by an indemnity."

More Accurate Service in Greensboro Than Baltimore

Mr. C. M. Vanstony had his little girl's eyes examined in Baltimore last year and went with the prescription to one of the largest and best known optical houses there to have the glasses made up. FORTUNATELY one of the lenses got broken recently and was carried to the Greensboro Eye Specialist to be replaced. He saw a glance that neither less accorded with the prescription, and so changed them both. Mr. Vanstony sent the old lenses with an explanation to the oculist who had given the prescription and in reply received the following:

In the alliance platform there are three planks: Money, land and transportation. The money, or financial plank, is doubtless the most important of the three and embraces free silver, a graduated income tax, abolition of national banks, opposition to monopoly, etc.—Progressive Farmer.

If these three planks will not do then call them the heavens, the earth and regions under the earth; the past, present and future; physical, mental and spiritual; earth, water and air; (especially air), or any other all-embracing designations that may be suggested. Which of these planks floats the initiative? Which supports the referendum? The populist platform, like the populist intellect, seems to be a fearfully constructed affair.

The fascination of gold is one of the most wonderful facts of human experience. The passion of the gold seeker is like unto no other passion known.

It seems to be different even from the natural craving for wealth. It is not at all improbable that if the cost of finding all the gold now in existence were balanced against the gold the former would be far in excess. Gold mining is notoriously a losing industry. And yet somehow men with a gold mine having a remote promise of productiveness can always find takers for its shares. It is now stated that despite the immense productiveness of the Klondike mines every dollar's worth of gold taken out has cost, all things considered, over a dollar. And yet while men go down to the sea in ships or dream fair dreams the visions of the gold-seeker will entice them.

The Lamp

that lights the way to Good Health

is a bottle of the greatest of all blood purifiers—

Johnston's Sarsaparilla

QUART BOTTLES.

This great blood purifier and nerve tonic, cures diseases by removing from the system, the conditions which produce them. It expels all poison and impurity from the blood. It acts upon the nerves as a stimulant, particularly upon those nerves belonging to the great organs of the body; therefore, it causes the heart to beat with greater force, the lungs to take in more oxygen and to expel more carbonic acid; it induces the kidneys to send off more of the poisonous excretions from the blood; the bowels to have more regularity and healthfulness in their action; the sweat glands to throw out more impurities.

Our illustrated book of 36 pages will tell you what is the matter and what to do. It is free for the asking. Quert bottles, 50c.

The Y. W. C. T. U. of Greensboro held its annual prize contest last night in the Chapel at the Benbow.

The presence of a crowd well executed program was good and those of Emma Della Swinson and Miss Emma Hyatt, are worthy of special mention for their rendition and cadences.

The solo sang by Miss Della Jordan pleased the audience so well, that the applause was equal to an encore. Miss Mamie Nochs was the pianist for the occasion.

The judges were President Chanis, of Bennett College, the Rev. Tate and Rev. Lee. The first prize was given to Miss G. E. Jones, the second to Miss Emma Hyatt both students of Bennett College.

Mrs. M. J. Bullock was mistress of ceremonies.

The popular amusement of "shooting the chutes" appears to have made a great hit in Atlanta, Ga., where an enterprising business man converted a mountain slope 500 feet long into a "chute." Several of the "shooters" were maimed, and the slide has been closed up. It remains for Yankee genius to establish a similar amusement resort in the Alps.

Ohio has produced a genius who was Uncle Sam's build, warships of rubber. On a postal addressed to congress, dated from Van Wert, he points out that "cannons or torpedoes can't pierce or go through rubber on hitting the vessel," and he adds that all missiles would rebound from the sides of a ship built on the lines suggested. The matter has not yet been laid before the federal legislators.

St. Louis is to have an office building erected exclusively for women. The offices are to be rented to business or professional women. Special inducements are to be offered for the attraction of dressmakers, milliners, hairdressers, women manicurists, chiropodists, typewriters, women physicians and women lawyers. The question naturally arises as to what measures are to be taken to secure the permanent exclusion of rodents from the building.

Note the change today in the advertisement of the Guilford Department store. Sales of varied lines of goods at reduced prices to be continued throughout the remainder of this week.

The lecture of Dr. Blackwell at Baptist Church last night, was listened to for two solid hours with unflagging interest. We scarce could say more in praise of the gifted and eloquent speaker.

Miss Louise Snodgrass, Mrs. Etta Ward, having left to-day for the northern fashion centers, to be gone about three weeks to take in the principal openings in spring millinery and fashions. While gone she will buy a full and complete line, comprising all the latest shapes and novelties in the millinery line.

W. B. Lee, of Chatham county, was in the city to-day. He will soon become a citizen of Greensboro, we are glad to know. Himself and his brother have rented the corner store room in the Groome building and will soon put in a line of general merchandise. The Telegram extends to these young men a cordial welcome.

them this winter in his own planation. Mr. Chilcutt says he used to get five dollars a piece for mink skins; trapping was then a profitable business, but now he catches them because they interfere seriously with his chickens.

In your enthusiasm over the growth of Greensboro, the new brick business houses being planted now and those to be planted in the near future; the numerous pretty residences now being built and others contracted for; the fact that our several lumber mills are running full time with orders ahead; Keep your mind's eye steadily riveted on the fact that in addition to all this and many other blessings we enjoy in this city of flowers and beautiful women we need and must have more manufactories.

The Committee Returned.

Messrs. J. J. Stone, chief of fire department, J. Henry Phipps, chairman of fire committee and O. D. Boycott, foreman of the hook and ladder company, who compose a special committee to examine and report on a horse hook and ladder truck to be purchased by the city, returned this morning from Portsmouth, where they went to examine the Babcock Aerial truck. They will go to-morrow night to Danville to examine the truck there.

The members of the committee are pleased with their trip to Portsmouth. The officials there were exceedingly courteous and took pains to show them their fire lighting apparatus and otherwise making their stay a pleasant one.

While in Portsmouth, Mr. Stone says he saw two battleships about ready to go out, the Winslow and Monitor. The Winslow sailed this morning, and the Monitor will leave in a few days.
